## MED STORY

MED-PRODUCTS GmbH is a German company established in 2014 with the head office in Frankfurt am Main.

MED-PRODUCTS specialize in manufacturing and marketing high range of medical disposable and medical device products. MED-PRODUCTS started its sales activity in Middle East market and it has been on the rise ever since providing a wide variety of medical disposable and medical device products and keeping a glance on innovations to enhance all products for the benefit of customer's demands. It's focal points of production are being customer satisfaction, competitive pricing and conformation to the highest of quality standards.

### OUR VISION

Our vision is to achieve customer's fully satisfaction by delivering quality products at an affordable price and bringing value to customers through professionalism, knowledge, integrity, trustworthiness and action.

### OUR MISSION

MED-PRODUCTS mission is to achieve the reputation of quality and initiate to provide cost-effective healthcare solutions, customized customer service and build the unconditional trust of our customer. Our mission is achievable by constructing a strong corporate culture, developed by our employees' commitments to our corporate values.

### FEATURING NEW METHODS

With MED-PRODUCTS's longstanding commitment to research and development, MED-PRODUCTS continually pursues innovative technologies through its own research, collaborations, and partnerships around the world. In addition, participating in many international trade fairs, training and development programs in different countries regularly in order to provide best to our customers and employees.

# WHY MED?

## VALUES AND STRENGTHS

Working with our customers in a collaborative way to ensure that we always strive to be the best and offer innovative and optimal solutions to all of our customers across all of our many and diverse operations.

## TRUST

In MED, we are committed in placing human health above business model. We believe in the concept of giving superior quality, reasonable pricing, technically advanced medical products, ensuring a qualitative after sales back up, and most important building the road of trust with our customers. Our products are supplied all over Middle East and we will keep developing to make sure that our products reach all around the world.

## PACKAGING AND DESIGN

At Med, however, we do not rest on our successes and have developed methods and tools for continuous improvement. Our packaging and designing success method depend on delivering best products in terms of performance, safety, material and labelling. We do our best to achieve our customer's satisfaction.

## OUR EXPERTISE

Med's success depends on its unique blend of highly experienced personnel and young & dynamic professional employees specializing in their respective fields. They strive hard to ensure to supply quality products at reasonable rates and within the mutually settled delivery schedule.

## MED EARLY PREGNANCY TEST

Med Early Pregnancy Test is the only pregnancy test with a Color Change Tip that turns pink when urine is being absorbed, giving you extra reassurance that the test is working. The unique floodguard is designed to reduce testing error for greater confidence. It is over 99% accurate from the day of your expected period and easy to read – giving you clear and confident results.

### How to Use:

- 1- Remove the cap to expose the absorbent tip.
- 2- Urinate on the absorbent tip directly till it is thoroughly wet (at least 5 seconds).
- 3- Lay the midstream on a flat surface with window on top.
- 4- Read result within 5 minutes.
